## Product features

### Automatic water softener 5 l

|              |                                  |                 |
|--------------|----------------------------------|-----------------|
| <b>Model</b> | <b>SAP Code</b>                  | 00006578        |
| R 08         | <b>A group of articles - web</b> | Water softeners |

- Resin capacity: 5.00
- Inlet pressure [bar]: 2-8
- Material: Polypropylene

|                        |          |                            |                    |
|------------------------|----------|----------------------------|--------------------|
| <b>SAP Code</b>        | 00006578 | <b>Net Weight [kg]</b>     | 9.00               |
| <b>Net Width [mm]</b>  | 233      | <b>Power electric [kW]</b> | 0.005              |
| <b>Net Depth [mm]</b>  | 455      | <b>Loading</b>             | 230 V / 1N - 50 Hz |
| <b>Net Height [mm]</b> | 540      | <b>Resin capacity</b>      | 5.00               |

## Product benefits

### Automatic water softener 5 l

|              |                                  |                 |
|--------------|----------------------------------|-----------------|
| <b>Model</b> | <b>SAP Code</b>                  | 00006578        |
| R 08         | <b>A group of articles - web</b> | Water softeners |

1

#### All-stainless design

only stainless steel intended for food contact is used

- absolutely rust-proof and non-magnetic design
- resists even weak acids easier compliance with hygiene standards (HACCP); easy maintenance and cleaning

2

#### Regeneration of the softener is done only with salt

light regeneration with salt

- no complex operators are required, regeneration can be handled by trained operators

3

#### Automatic regeneration using the set day and time

automating the regeneration process

- less need for operator intervention; 20 kg salt container
